

**This is  
my home!**

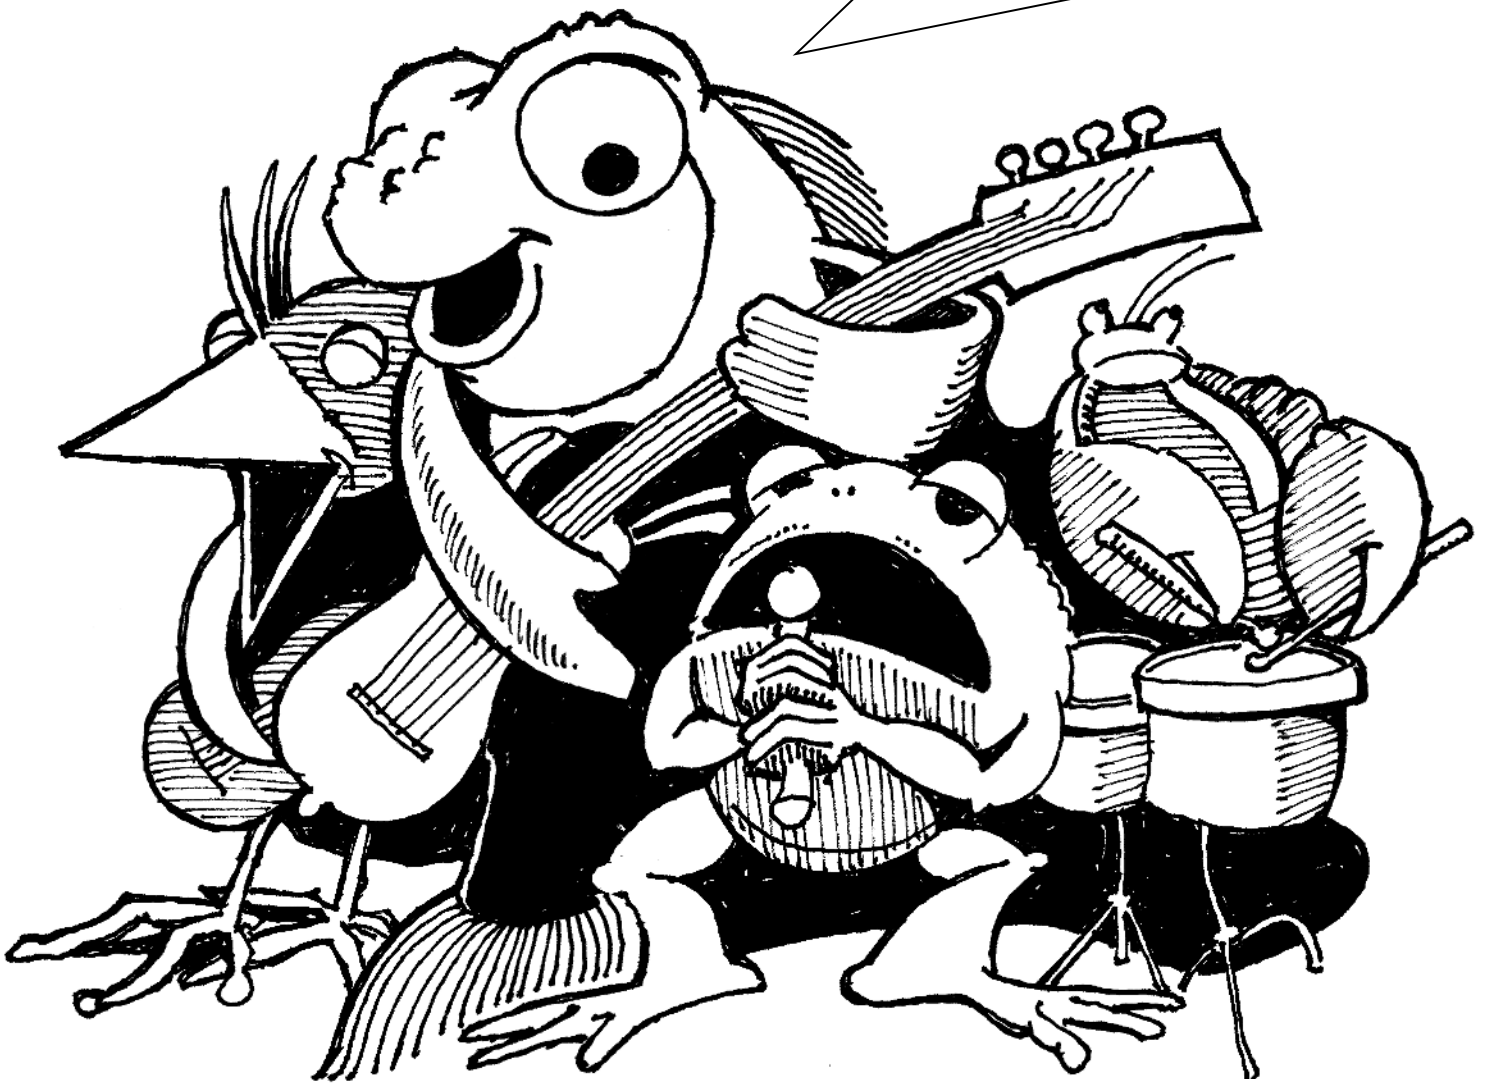

**Stanley is one of 57 species,  
or kinds, of fish that live in the  
Shenandoah River Watershed.**

**The  
North Fork  
of the  
Shenandoah River**

**“I’m just a-rollin’ stones!”**

Stanley is a  
**“Central Stoneroller”**.

The name *Stoneroller* comes from the behavior of the male fish when he builds a bowl-shaped nest for a female fish by moving or rolling small stones or gravel with his nose.
